from the BEGINNING

It starts from a piece of clay and ends with a work of art, with a whole lot in between. We're a full service company that cares about our products and our customers. We provide everything you need from quality products, to resources and support, to help you be successful. Come along as we take you through The Art of Gare.

to the end THE ART of GARE

1 SCULPTING

Our on-site sculptor starts with a block of clay and a vision. Using his hands, tools of every shape, size and material, and years of experience, he crafts the perfect piece.

2 BISQUE

From a molded piece of clay, comes a fired piece of bisque. Hand-crafted in Massachusetts and produced all over the world, we source the finest facilities and trade workers to create the most reliable bisque in the industry.

3 COLOR

Over 150 colors, bright, vibrant, earthy, and unique, all made in our Massachusetts manufacturing plant. Every color goes through rigorous testing, meeting our high standards of excellence.

4 DESIGNS

We turn plain white bisque into works of art. Our designs are easy to replicate yet deliver a sense of awe. We believe everyone is an artist, all it takes is a little bit of inspiration!

5 SERVICE

We are a team of professionals who pride ourselves on being the helping hands our customers need whether it's advice, assistance, product inquiries/requests, or just a friendly resource to help guide you to success.

6

SUPPORT

Our experienced and accredited technical staff is here to provide answers to any product questions you may have. We'll guide you and walk you through any issue until you have complete understanding.

7

WAREHOUSES

Our East Coast warehouse is where we make, test, package, store, and ship our products, and having our West Coast warehouse enables us to ship our products and have them arrive in a fast and reliable way.

8

RESOURCES

From newsletters and catalogs, to recipes and videos, our resources are developed to train our customers with the product knowledge they need in order to create an experience their customers will enjoy over and over again.

9

EVENTS

Through events at our facility as well as various locations across the country, we strive to share our knowledge of how to run a successful pottery studio, through fun events geared towards all levels of experience in the industry.

10

HISTORY

We have been a family-owned and operated company for over 65 years. We have vast industry knowledge and continue to evolve over the years.

What is a Green Speaker? It's an eco-friendly sound amplifier and here's how it works. Simply turn on your mobile phone or mp3 player to listen to music or any sounds of choice, and place it in the opening at the top (the phone's speaker needs to be inside the green speaker and not sticking out of the top), and listen as the sound becomes instantly amplified. Ideal for desks, dressers, or small group settings. It also makes a wonderful gift!

Pottery Glazes

Pottery Glazes are low-fire glazes that create a high-fire look. The colors are inspired by nature and give a multi-tone effect with a high gloss shine. The beauty of these glazes is their reactive and ever-changing quality depending on how they are layered, the number of coats, the piece on which they are painted, and application. No two fired pieces will ever be exactly alike, making them the most unique and beautiful glazes to create with. Apply 3-4 coats for best results.

Available in 4 oz. Jars and 16 oz. Bottles

Pottery Glaze Layering Combinations

Layer Pottery Glazes to create unique effects and a different look every time. Here are just a few of the endless color combinations created by layering Pottery Glazes and Specialty Glazes. To create the looks below, start with 3 base coats of either a Specialty Glaze or a Pottery Glaze to the entire bisque piece, let dry, and apply 3 coats of Pottery Glaze to the top portion of the mug. Fire to cone 06 and let the magic happen!

Surface Coats

These 10 colors make the ideal background for design. Apply Surface Coats to a bisque piece and use Fun Strokes to add a design. These colors do not need any clear glaze, and once fired they have an amazing shine. Surface Coat...Fun Stroke...and Fire!

Available in 16 oz. Bottles

Try them as the base color under Pottery Glazes too, see page 137!

orders over \$500 SHIP FREE!

Hassle free...the way it used to be!

You spoke, we listened. With survey responses, hundreds of conversations, testing of various programs, and so much more, we heard what you needed and have changed our freight policy accordingly.

All orders over \$500 net qualify for FREE FREIGHT (within the Continental US), and we lowered our fees for orders under \$500 (15% freight charge for orders below \$299, and 10% freight charge for orders between \$300–\$499). We'll work with you to determine the best means of delivering your orders depending on your location, resources, and size of order. For example, we can deliver via ground service with parcel packaging, or via motor freight. We'll make sure the arrival of your shipments is as seamless as possible, without incurring fees.
