

# Sweet Treats Plate:

## Project Plans:

### Bisque:

#3009 Heart Plate

### Colors:

#2300 Polar Bear

#2313 Happy Trails

#2366 Chocolate Moose

#2384 Pinkie Winkie

#2392 Rockin' Red

#2350 Golden Retriever

## Directions:

Note: The **base** colors of the candies are labeled as “**B**” on the template, and the **detail** colors are labeled as “**D**”.

**Step 1** – Apply 3 coats of Happy trails to the inside-bottom of the heart plate (avoiding the rim/edges). Once it dries, trace the pattern from **template #1** onto the plate.

**Step 2** – Next, apply 3-4 coats of Rockin' Red to the edges of the plate and let it dry.

**Step 3** – Referencing **template #2**, use Fun Writers and fill in each candy with its labeled color. If you want to achieve the “swirly” look when decorating the candies, keep in mind that the base color of the candy must be wet still, so that you can swirl another color into it. If you don't want to use the swirl technique, let the base color of the candies dry, and then add the details however you'd like. (The base and detail colors are listed on the template)

**Step 4** – Once you've painted all the details on your candies, let it dry.

**Step 5** – Dip it into some Clear Glaze and fire to cone 06!
