FireBox Electric Kiln with WiFi Touchscreen Controller

Compact & Versatile Tabletop Kiln

Looking for a small yet powerful **electric tabletop kiln** for ceramics, glass fusing, or metal clay? The **FireBox 8x4** and **FireBox 8x6** are designed for **precision, ease of use, and efficiency**—perfect for hobbyists, studios, and professionals alike.

Mini Touchscreen Controller – Versatile Firing Made Simple

Both the FireBox 8x4 and FireBox 8x6 come equipped with the innovative **Mini Touchscreen Controller**, offering unparalleled convenience and versatility for **glass, ceramics, and metal clay firing**. Designed to handle small firings and testing with ease, this controller brings advanced functionality to every firing process.

- ✓ **GlassFire Mode:** Select your technique and firing speed, and the controller creates a program for you—quick and hassle-free.
- ✓ **ConeFire Mode:** Fire ceramics by simply entering the Cone Value, Firing Speed, and Hold Time for precise results.
- ✓ **PMC Mode:** Choose the type of Precious Metal Clay, and the controller does the rest.
- ✓ **Custom Programs:** Create up to **30 unique firing programs** with 8 Ramp and Hold segments each, tailored to your specific needs.
- ✓ **Real-Time Adjustments:** Modify temperatures or hold times mid-firing with features like **Add Time or Add Temp**.
