

# Spider Tie-Dye Technique

The secret to this technique is the addition of black dye on one side of your spiral. You'll love the reveal!

## Step 1:

Fold damp shirt in half.

## Step 2:

Pinch shirt where you would like centre of spiral to be. Twist until entire shirt is spiralled.

## Step 3:

Bind spiral with three intersecting rubber bands to create six wedge shapes.

## Step 4:

Apply a different colour of dye onto each wedge shape. Carefully flip spiral over and apply corresponding colours to backside.

## Step 5:

Apply black dye to one side of spiral, completely covering other colours. Cover with plastic wrap to keep damp. Let set 6 to 8 hours, rinse thoroughly and wash separately.
